

OBAMA'S "AMNESTY 2009" IS COMING

CAN WE DO ANYTHING TO STOP IT?

In 2007, an unprecedented alliance of grassroots groups rallied millions of angry Americans to call their Senators and demand they reject the McCain-Kennedy "amnesty" immigration bill. Two years later:

- [terrorists view Mexico as the easiest route](#) for smuggling bio weapons into the U.S.; methods used by the Justice Department for [deportations](#) have been slowed; and, drug cartel violence along the border is at an all time high while immigration enforcement throughout the U.S. is at an all time low;
- the economy is teetering; trillions of taxpayer dollars are being spent on Congressional bailouts and government take-overs; unemployment is at a record high; and,
- foreign dictators are developing nuclear weapons that threaten our national security and global stability.

Against this backdrop and an agenda to institute a global warming tax and government-run healthcare system, [Barack Obama plans to meet with Congressional leaders](#) on June 17th to begin to forge yet another comprehensive "back room deal" that will assuredly lead to amnesty for millions of illegal aliens. As a candidate for President, [Obama promised](#) comprehensive immigration reform within his first four years. [Recent news articles](#) confirm that pro-illegal immigrant groups who helped elect Obama President, plan on holding him accountable and are trying to push up the timetable for amnesty *to within a year*. And now, [Congressional leaders](#) are pushing to [include "immigration reform"](#) along with a host of other new trillion dollar government programs slated to come up later this year.

Will grassroots groups come together like they did in 2007 and coordinate their efforts to fight amnesty in 2009? Or will they be caught like "deer in the headlights" and rolled over by the Obama media machine? Will these groups remain on the sidelines while *pro-amnesty* advocacy groups - like the National Council of La Raza and the SEIU - continue to meet with powerful Democrats, coordinate weekly conference calls, exchange and activate e-mail lists and raise money for national media campaigns designed to garner public sympathy and support? Or will they be prepared?

It's time to plan a new coordinated strategy!
